May 28, 2024

Dear Parents and Students,

It is with great excitement that I welcome you to the summer school programs at Arborland!

We have an incredible, fun-filled, and educational summer planned for our students. This summer, we will be embarking on thrilling adventures not only exploring what lies beneath the surface of the sea but also taking a journey into the stars! We will dive into marine biology to discover the wonders of ocean life and launch into space to explore the mysteries of our spectacular universe.

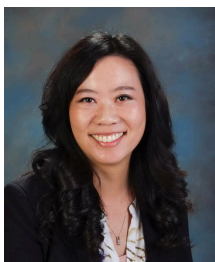

In addition to our science explorations, we will be whipping up some delicious dishes with our safe and engaging cooking classes. Let's not forget our own mini-Olympics, where students can challenge themselves and experience the excitement of the Games.

Of course, we can't forget our strengths, which is providing an academic based program for students to continue learning throughout the summer. Mornings will be dedicated to strengthening math and language skills, focusing on some of the more challenging math and language topics that the children will learn in the upcoming school year to give them a head start for the next school year.

And that's not all. Summer at Arborland is packed with special theme days such as water days, popsicle days, picnic days, field trip days and more! Each day is designed to make learning enjoyable and memorable.

If you are new to Arborland or have a question, don't hesitate to reach out to our office or your child's teacher! We are here to ensure your child's summer is filled with growth, learning, and fun!

Let's have a wonderful summer together!

Sincerely,

Veronica Chen, M.Ed., M.B.A.
Principal
